Instructions for On-Line Application
Summer Medical Student Biomedical Research Funding

The University of Michigan Medical School Student Biomedical Research Programs provides a mentored, funded 10 week research experience for M1 medical students or those that will enter medical school in the fall of the current year. Interested students should identify a faculty research mentor and submit a proposal prior to the deadline. The proposed research can be basic science, clinical, or a combination. Medical education projects which include a hypothesis and research plan are also eligible. A stipend for a 10 week period is paid to the student by SBRP. If a student seeks outside funding in addition to the SBRP Program, the amount the SBRP program will fund is at the discretion of the Director. Applications are reviewed by the Committee for Student Biomedical Research. Applicants will be notified by early April as to whether their proposal has been approved.

INTRODUCTION FOR ON-LINE APPLICATION PROCESS
The proposal should be written by the student applicant with close supervision by the faculty research mentor. Any use of, or reference to, the faculty mentor’s previous work should be cited in the references at the end of the proposal.

Step 1 – Complete the Student Information Page

Step 2 – Complete the Research Proposal (the character limits include spaces)

The proposal must include the following sections, in the order as indicated:
1. Title (no more than 20 words)
2. Hypothesis (no more than 750 characters)
3. Background (no more than 3500 characters)
   -make sure to include references
4. Research Design & Methods - no more than 3000 characters; including:
   a) experimental protocol or design
   -specifically discuss the role of the student
   c) materials and method
   d) plan for statistical analysis if applicable
5. Significance (no more than 750 characters)
   -why are these studies important?
6. Cited literature (reference) (no more than 4000 characters)

Step 3 – Read and acknowledge the Agreement Form

Please remember to Submit your Application and Proposal

You will be able to display and print your Proposal.
