UNIVERSITY OF MICHIGAN
MD/MBA DUAL DEGREE PROGRAM

Mission Statement
The mission of the University of Michigan MD/MBA Dual Degree Program is to provide opportunities for students to explore and integrate complementary interests and career goals that combine medicine and business.

Program Structure
The University of Michigan MD/MBA Program is a five-year integrated program. Students accepted into the Program will spend their first three years in Medical School, completing the M1, M2 and M3 course work, and up to four months of M4 course work. These students will then matriculate in the Business School to complete the full first year MBA course load as their fourth program year and, if desired, complete an MBA summer internship between the fourth and fifth program years. In the fifth year, students will spend one semester completing the MD requirements, and the other semester completing the MBA requirements.

Admission Process for Prospective Medical Students
Applicants may make application to the Medical School and the Business School at the same time. Each school will independently evaluate the applicant and make their admission decision. If satisfactory progress in the Medical School curriculum is achieved, the student may, pending endorsement by the Medical School’s Clinical Academic Review Board, begin Business School in the fall of the fourth year of Medical School.

Admission Process For Current Medical Students
Current medical students are encouraged to discuss their interest in the MD/MBA Program with the Medical School’s Program Coordinator, the Office of Student Programs Counselors, or the Program’s Faculty Advisor. Students should formally apply to the MD/MBA Program by submitting the Medical School’s MD/MBA Intent Form at the end of their M2 year or by November 1st of their M3 year. This form may be obtained from the Program Coordinator (sypher@umich.edu). At the time the Intent Form is submitted, students will also submit a written personal statement outlining their goals and reasons for pursuing the MD/MBA degree.

Admission to the MD/MBA Program is highly competitive and is not automatic. Applicants are expected to have demonstrated outstanding academic achievement and professionalism in Medical School. Applicants must receive Medical School endorsement for admission to the MD/MBA Program through the Clinical Academic Review Board. This will include rigorous review of the applicant’s overall medical school performance, personal statement, and any other relevant materials.

Students must also formally apply for the Business School’s Decision II Deadline (January) by completing the standard MBA application (http://www.bus.umich.edu/Admissions/ApplyNow.htm or http://www.embark.com) and fulfilling all listed requirements, including the GMAT exam, essays, letters of recommendation, and transcripts. Students are encouraged to set up an interview through the Business School Admissions Office. Business School officers have been advised that Medical School students will be applying for the Decision II deadline and they will give these applicants full consideration.

Curriculum
See reverse side.

Tuition
Student accepted in the MD/MBA Program will have access to all financial assistance available from both the Medical School and the Ford School of Public Policy.

MD/MBA DUAL DEGREE PROGRAM

CURRICULUM

Year 1
Standard first year medical (M1) curriculum.

Suggested: Summer between M1 and M2 Year: Internship at UM Health System or other relevant experience. Students are also encouraged to take the GMAT during this time.

Year 2
Standard second year medical (M2) curriculum.

Required Complete the M2 Comprehensive Clinical Assessment (CCA) and Step 1 of the United States Medical Licensing Examination.

Year 3
Required M3 clinical clerkships. Schedule will vary depending on track (May-April).

Required May-August between M3 and B1 Year: Complete up to four months of M4 course work (total requirements for M4 year = 7 months; 2 months of subinternship/ICUs, 1 month Emergency Medicine, 1 month Advanced Medical Therapeutics and 3 electives-2 of which must be clinical, the USMLE Step 2 examinations (clinical knowledge and clinical skills), and the M4 Comprehensive Clinical Assessment.

Year 4
Standard Business School first year curriculum.

Suggested Summer after B1 Year (between Program Year 4 and 5): Traditional MBA Students complete a three-month internship during the summer after their B1 year. Although not required, this internship is an integral part of the MBA experience, and will be especially critical for MD/MBA students because it provides additional real world business experience. MD/MBA Program students will complete a summer Internship at a health care-related company. The B1 year concludes in late April, MD/MBA so students will complete their summer internship during May, June, and July. Beginning in August, students will complete their remaining clinical requirements.

Year 5
Complete remaining Medical and Business School requirements.

In recognition of the interdependency of the degrees, the University confers the MD and MBA degrees only after the completion of both degree requirements.
