

ERAS Specialties with Additional Information

Type :

ERAS will continue to update this page as we receive additional specialty information throughout the season.

| Type | Cycle | Specialty | Last Updated | Additional Information |
|-----------|-----------|------------------------------|--------------|---|
| Residency | September | Anesthesiology | | <p>Select Anesthesiology programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>The Association of Anesthesiology Core Program Directors (AACPD) has released guidance on the changes to the ERAS Application, guidance regarding licensing examinations for osteopathic students, and a statement on interviews for the 2023-24 residency recruitment season.</p> <p>Posted: June 16, 2023</p> |
| Residency | September | Child Neurology | | <p>Select Child Neurology and Neurodevelopmental Disabilities (Neurology) programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>Posted: June 23, 2023</p> |
| Residency | September | Dermatology | | <p>Select Dermatology programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>The Association of Professors of Dermatology (APD) has released guidance regarding the 2023-2024 residency application cycle.</p> <p>Posted: June 16, 2023</p> |
| Residency | September | Emergency Medicine | | <p>Select Emergency Medicine programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>See CORD's resources related to Emergency Medicine's application guidance.</p> <p>The Council of Emergency Medicine Residency Directors developed a Standardized Letter of Evaluation (SLOE) form for those applying to Emergency Medicine. To request a SLOE, please send your letter author the ERAS Letter Request Form (that should include your ERAS Letter ID), and the SLOE website link (SLOE), which has instructions for completing the form and information on eligibility requirements.</p> <p>Posted: June 13, 2023</p> |
| Residency | September | Family Medicine | | <p>Select Family Medicine programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>Please visit the AAFP webpage for up-to-date information and guidance around their application cycle.</p> <p>Posted: June 23, 2023</p> |
| Residency | September | Internal Medicine | | <p>Select Internal Medicine programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>The Alliance for Academic Internal Medicine Guidance for the 2022-2023 Residency Application Season remains unchanged for the 2023-24 application season. The template for the IM Structured Evaluative Letter (IM SEL), has no changes in recommended guideline. The Fellowship Letter of Recommendations (LoR) Guidelines have improved the educational handover from residency to fellowship, improving reliability, equity, and efficiency through standardization. The Alliance reviewed and revised its Guidance for Fellowship Application Season and recommends that fellowship programs conduct virtual interviews for all applicants, including learners at their own institutions. In the fall of 2022, AAIM released recommendations on how to integrate equity and inclusion into residency interview process, which can be readily adapted for the fellowship interview process.</p> <p>Posted: June 16, 2023</p> |
| Residency | September | Internal Medicine/Psychiatry | | <p>Select Internal Medicine/Psychiatry programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>Posted: June 23, 2023</p> |

| Type | Cycle | Specialty | Last Updated | Additional Information |
|-----------|-----------|---------------------------------------|-----------------|--|
| Residency | September | Interventional Radiology - Integrated | | Select Integrated Interventional Radiology programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. Posted: June 16, 2023 |
| Residency | September | Neurodevelopmental Disabilities | | Select Child Neurology and Neurodevelopmental Disabilities (Neurology) programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. Posted: June 23, 2023 |
| Residency | September | Neurological Surgery | | Select Neurological Surgery programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. For detailed guidance on the 2023-24 Match Cycle as well as templates for standardized letters of recommendation, please visit the website for the Society of Neurological Surgeons . Posted: June 16, 2023 |
| Residency | September | Neurology | | Select Neurology programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. Posted: June 23, 2023 |
| Residency | September | Obstetrics and Gynecology | August 23, 2022 | OBGYN will again be adopting Standards to the OBGYN application and Interview Process which include application deadlines, a common interview release date, and virtual interviews for applicants. You may view the programs participating in the standards here . The list will continue to be updated and will be finalized by Aug 31, 2023. OBGYN will be participating in Program Signaling through the AAMC ERAS Application . One Standardized Letter of Evaluation (SLOE) , should be included in applicants' ERAS packages. The SLOE will replace one of the traditional letters of recommendation (LOR) or the Chair's letter. The Alignment Check Index (ACI) will be available on the AMA FREIDA website for applicants and advisors to help explore applicant alignment with residency programs. The ACI tool is intended to complement personal advising and other current tools available to applicants. Information on all the above are on the APGO's Right Resident, Right Program, Ready Day One: Applicant Resources webpage. Please download the RRR App for the most updated information on the OBGYN residency and interview process information. For questions, please email TransitionFeedback@apgo.org . Posted: June 16, 2023 |
| Residency | September | Orthopaedic Surgery | | Select Orthopaedic Surgery programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. For letters of recommendation to orthopaedic surgery residency applications, the American Orthopaedic Association's (AOA) Council of Orthopaedic Residency Directors (CORD) requests an Electronic Standardized Letter of Recommendation (eSLOR) as a replacement for a traditional narrative letter of recommendation. A separate written letter of recommendation is not necessary if utilizing the eSLOR. After sending the ERAS request form to your author(s), visit the eSLOR Applicant page on the AOA website . You must first sign an agreement and enter your ERAS AAMC ID and Letter IDs before letter author(s) can begin an eSLOR. Visit the AOA/CORD Orthopaedic Residency Information Network™ (ORIN) to view detailed information about participating orthopaedic surgery residency programs. For further information about AOA/CORD recommended guidelines including Universal Interview Offer Day, visit the the Residency Application Resource section on the AOA website . Posted: June 16, 2023 |
| Residency | September | Pathology-Anatomic and Clinical | | Select Anatomic and Clinical Pathology programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. Posted: June 23, 2023 |
| Residency | September | Pediatrics | | Select pediatric programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application. Posted: June 16, 2023 |

| Type | Cycle | Specialty | Last Updated | Additional Information |
|-----------|-----------|---|--------------|---|
| Residency | September | Physical Medicine and Rehabilitation | | <p>Select PM&R programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>The Association of Academic Physiatry Residency and Fellowship Program Directors Council (AAP RFPD) stance is that interviews should be conducted virtually for the 2023-24 interview season. The AAP RFPD agrees with the AAMC in suggesting that applicants signal their most interested programs, regardless of whether they are home or away rotations. To participate in program signals, candidates must opt-in at time of registration. Programs are also required to opt-in to program signaling by June 30 from the upcoming season.</p> <p>Please find the AAP RFPD best practice guidelines for the 2023-2024 PM&R interview cycle, including our code of conduct, here.</p> <p>Posted: June 16, 2023</p> |
| Residency | September | Psychiatry | | <p>Select Psychiatry programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>Please visit the AADPRT residency trainees webpage for up-to-date information and guidance around their application cycle.</p> <p>Posted: June 16, 2023</p> |
| Residency | September | Public Health and General Preventive Medicine | | <p>Select Preventive Medicine programs may participate in program signaling. Please visit the ERAS application webpage for information, guidance, timelines, and resources on completing the ERAS application.</p> <p>Posted: June 16, 2023</p> |
